HTML

CSS (Grid & Flex & Animations)

JavaScript (ES6+)

React & Hooks

Tailwind / SASS

Animations (GSAP/Framer Motion)

Performance & Accessibility

TOOLS & TECH

- React, Next.js • Vite
- TailwindCSS, SASS, BEM
- GSAP, Framer Motion
- Figma, Zeplin
- Git, GitHub, CI/CD
- Chrome DevTools, Lighthouse

EDUCATION

Diploma / Degree (if any)
University Name — Year

LANGUAGES

- Arabic — Native
- French — Fluent
- English — Professional

EXPERIENCE

Front-End Developer — Freelance / Upwork Projects
2022 — Present • Algeria / Remote

- Built responsive web apps using React, Tailwind and component-driven architecture.

- Implemented advanced animations and micro-interactions with GSAP to improve UX and conversions.
- Optimized performance: reduced bundle size, lazy-loaded resources and improved Lighthouse scores.
- Worked closely with designers to convert Figma designs into production-ready components.

Front-End Intern / Junior Developer — Tech Startup (Stage 0)
2019 — 2021

- Implemented responsive landing pages and dashboards, ensuring cross-browser compatibility.
- Introduced CSS variables and component-based CSS for maintainability.

SELECTED PROJECTS

Modern Dashboard
Developed an interactive admin dashboard with charts, filters and real-time updates. Focus on accessibility and performance.
Source Code • Live Demo

Product Landing
High-converting landing page with A/B testable hero, fast LCP and optimized images.
Source Code • Live Demo

E-commerce UI
Accessible product browsing and checkout flow with progressive enhancement for slow connections.
Source Code • Live Demo

PROFESSIONAL SUMMARY

Front-end developer focused on building performant, accessible, and delightful interfaces. Strong background converting designs to pixel-perfect code, crafting maintainable components, and delivering production-ready experiences. Comfortable working in cross-functional teams and with product-minded stakeholders.
